

5th International E-Bus-Conference

GLOBALELECTRICTRANSPORT

Look for the
GREATEST PAIN

\$50M
annual
health
care costs

\$50M
lost daily
due to
traffic

5,000
deaths
annually

Find the **CAUSE**
of this **PROBLEM**

200,000+
jeepneys
nationwide

40%
of commuters
ride the jeepney

70%
of Manila's
air pollution

Building more
ROADS
and adding more
VEHICLES

is like putting out a
FIRE
with
GASOLINE

Create a **COMPLETE SOLUTION** *not just a product*

4 Charts TELL THE FUTURE

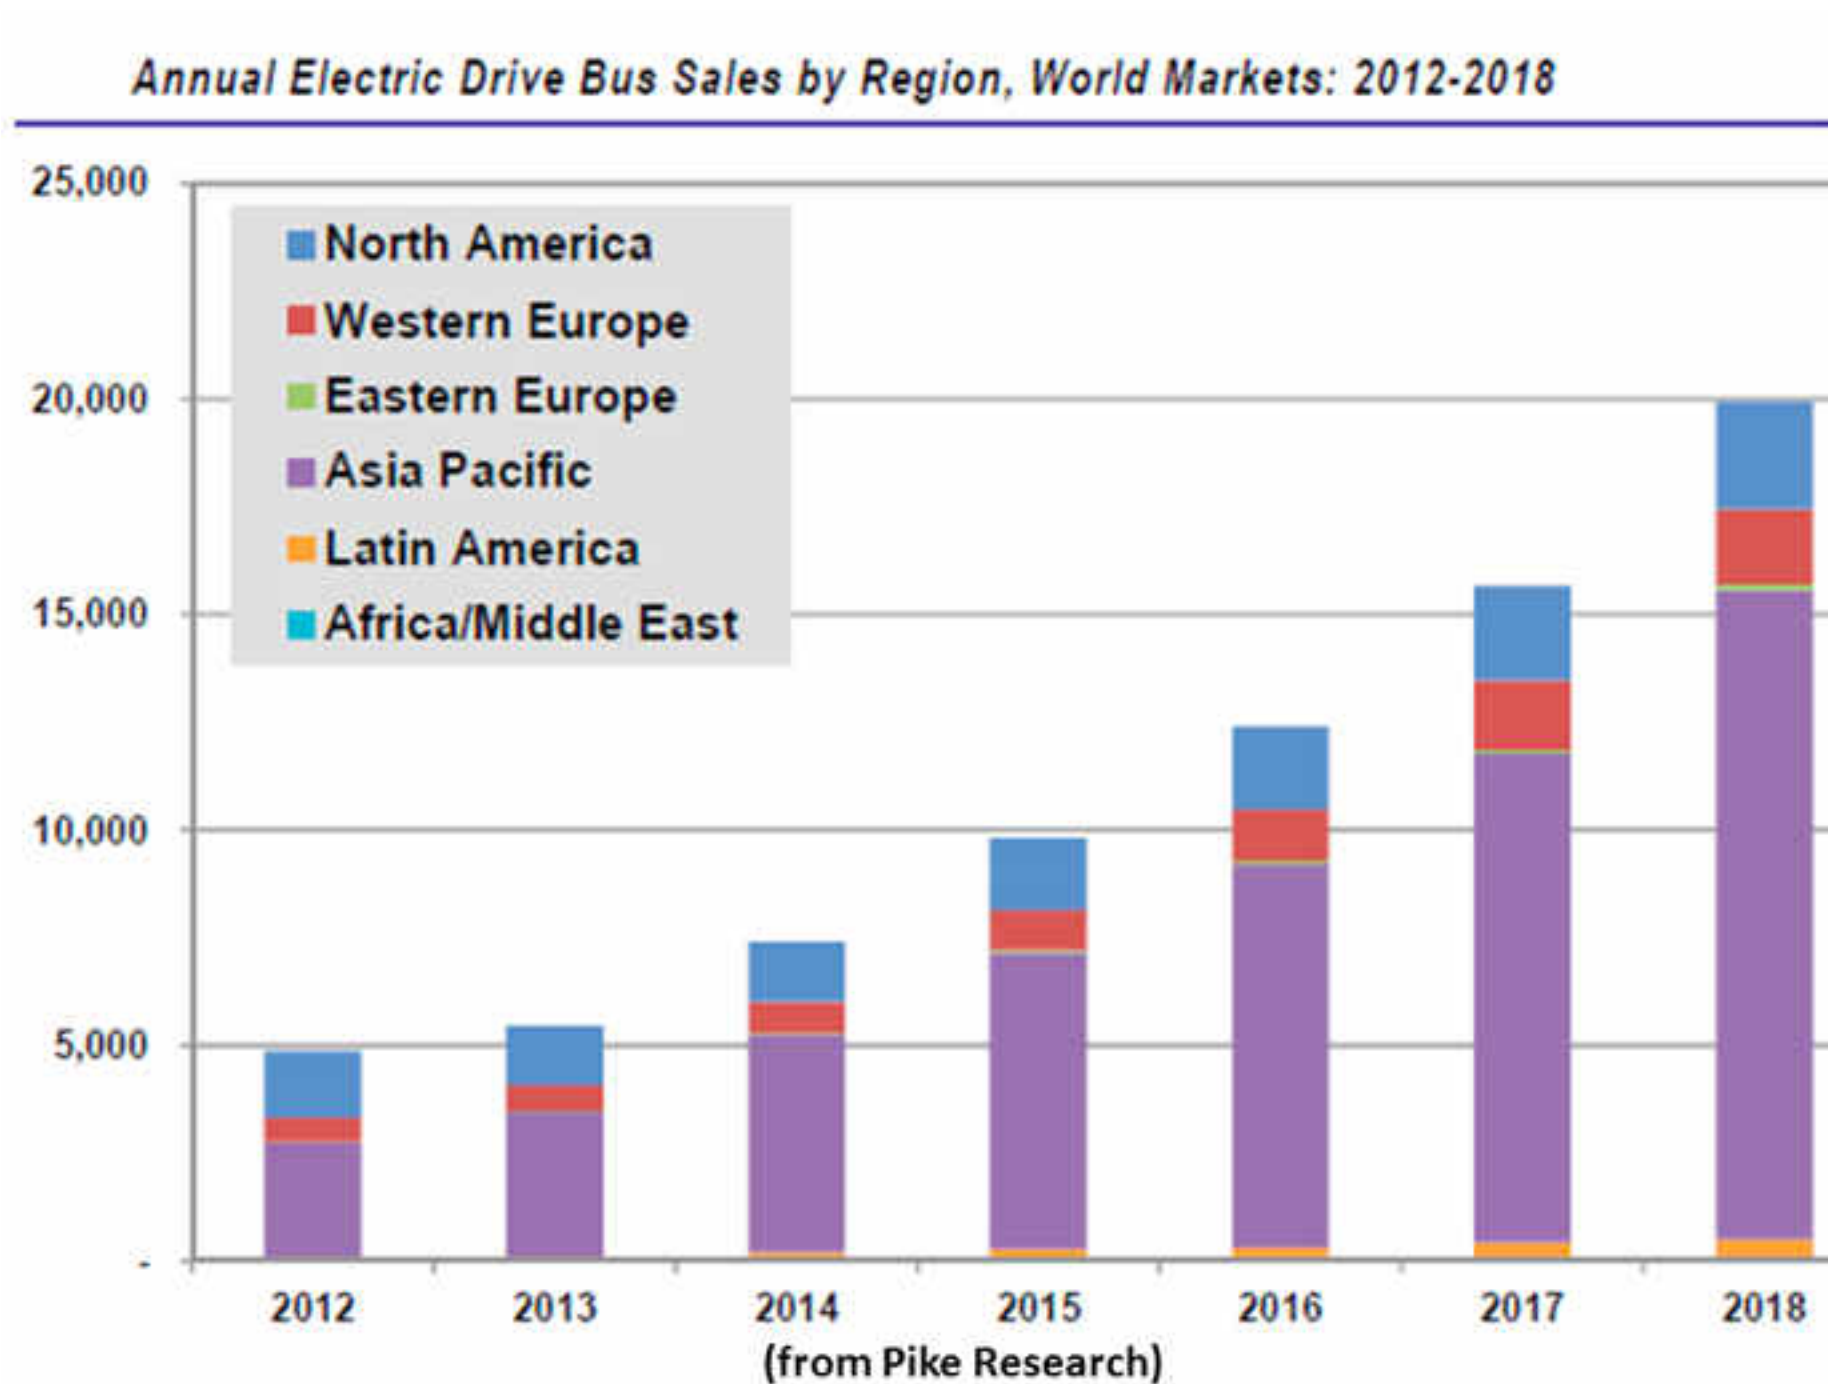

Electric vehicles are the future but it will take time

4 Charts TELL THE FUTURE

Buses will go electric before cars do

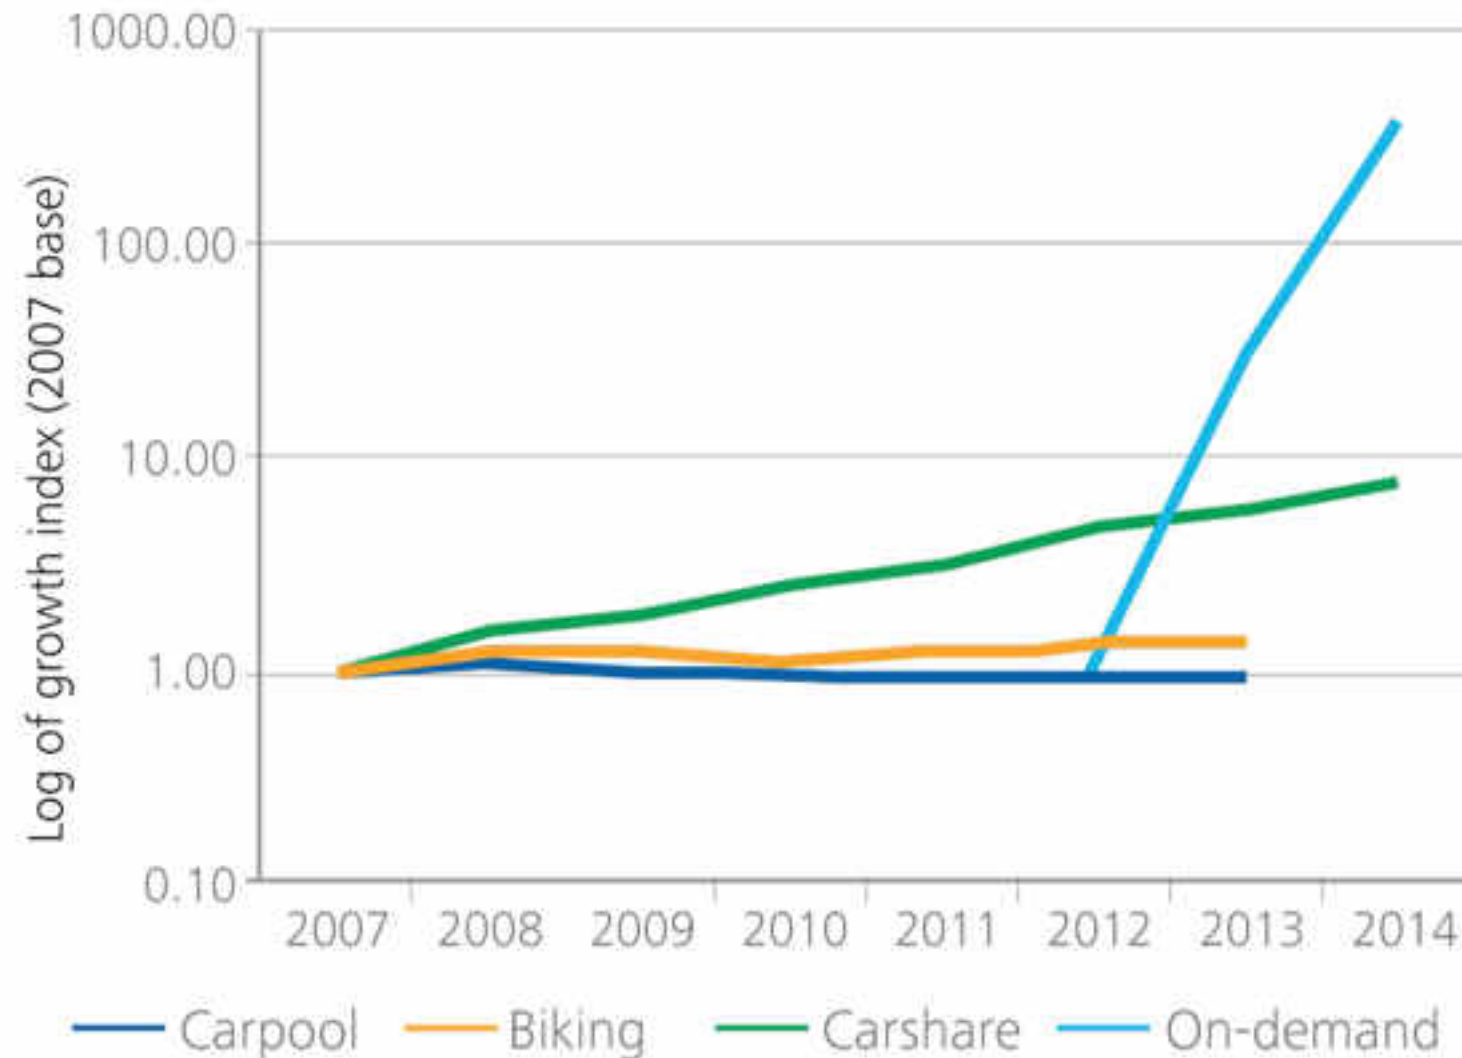

4 Charts TELL THE FUTURE

Asia/Pacific will have the largest demand

4 Charts **TELL THE FUTURE**

Figure 1. Growth rates for alternative transit modes

Sources: American Community Survey and University of California, Berkeley Transportation Sustainability Research Center, Slate.com, and FutureAdvisor.com.

Ride share and on demand systems will accelerate use

A Global Problem means a Global Opportunity

A developed country is not a place where the poor have cars, it is where the rich ride public transportation

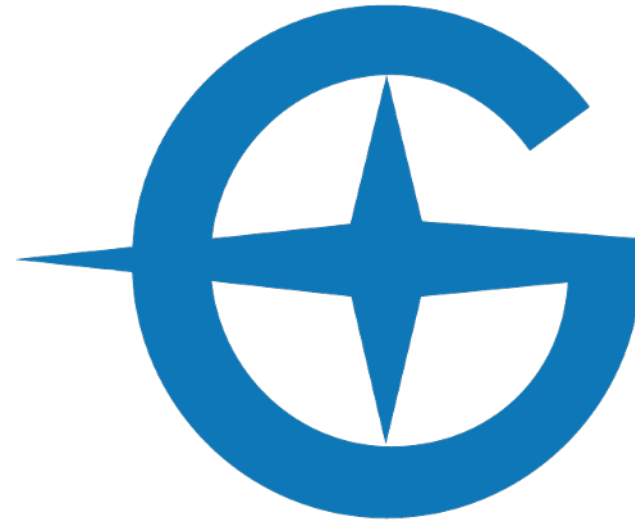

- Mayor Enrique Penalosa of Bogota

GBLELECTRICTRANSPORT

Change will not come if we wait for some other person or some other time. We are the ones we've been waiting for. We are the change that we seek

- US President Barack Obama
